

# Digitising SME Construction for faster, compliant housing delivery

**Government policy sets the ambition. HBXL makes it practical.**

Soon-to-be launched *House Builder Pack 360* is HBXL's fully integrated suite of digital tools, designed to accelerate housing delivery, streamline compliance, and enable SME builders - the firms who deliver a significant volume of UK homes - to build smarter, safer, and faster.

Backed by 25 years of innovation and a £4M+ investment, HBXL is the digital backbone of SME construction. Our builder-first platform translates regulatory intent into real-world workflows - removing friction, cutting errors, and supporting government housing and skills priorities.

01

## How HBXL supports government priorities

### 1. Planning Digitisation

- *Quick Plan*: automated site modelling, feasibility checks, and compliance overlays.
- Simplifies planning submissions and validation.
- Supports MMC-ready design and supplier integration.

### 2. Building Control Modernisation

- Automated Building Regulations documentation.
- Instant specification generation and compliance outputs - structured data for faster oversight.

### 3. Accelerating Housing Delivery

- End-to-end workflow: design, costing, scheduling, contracts, health & safety, project management.
- Empowers SME builders to deliver more homes in less time.
- Data-driven reporting on housing starts and completions.

### 4. MMC Adoption in Practice

- *Quick Plan* embeds MMC supplier specifications directly into builder workflows.
- Bridges the gap between offsite intent and on-site reality.

### 5. Upskilling & Training

- *HBXL Skills Academy* delivers government-funded training to the building sector.
- Software onboarding built into every programme.

02

## The Strategic Opportunity

Government needs housing growth, regulatory compliance, and SME productivity. HBXL delivers all three - providing a data-rich, builder-ready platform that turns policy ambition into practical delivery.

03

## Let's talk

**Partner with HBXL to: Digitise planning and building control | Accelerate SME-led housing delivery | Scale MMC adoption | Train and upskill the workforce**
